

WILD AI

UNLEASHING THE BEAST IN FEMALE ATHLETES

Name

Helene Guillaume

Work

WILD.AI

About

Helene created WILD.AI to empower female athletes to take advantage of their cycles instead of fighting against their bodies, by analysing their data and providing personalised recommendations, like no one ever did.

She was at Entrepreneur First, studied Mathematics and financial risks, was a Quant in a Hedge Fund and management consultant to Fortune500 companies on AI. She's a strong advocate on getting more women into tech, and is also the co-founder of PeakAI.org.
