

Mélisande Teng

Mélisande has just graduated from a Master's in Mathematics, Machine Learning and Computer Vision at Ecole Normale Supérieure Paris-Saclay. She also completed a MSc in Engineering, specializing in Applied Mathematics and Data Science at Ecole Centrale Paris, and a MSc in Management at ESSEC Business School in the social entrepreneurship chair.

She is passionate about using AI as a tool to have a positive social impact, and was a Data Science for Social Good Europe fellow in 2018. She is currently a computer vision intern at nam.R, a Paris based startup using open data and AI to help accelerate the ecological transition.
