

Monique Jeanne Morrow

Monique is President and Co-Founder of the Humanized Internet, a non-profit organization focused on providing digital identity for those individuals most underserved, and most importantly the need to control our identities. <https://www.thehumanizedinternet.org>.

Monique believes in the social good for technology with embedded ethics where one can respond to cognitive bias. Monique's focus in blockchain has been specific to education and credentialing, in addition to blockchain's applicability in other industries for example, healthcare Internet of Things and insurance. She has been active in the Bitcoin-Blockchain and Ethereum [Smart contracting] architectural discussions including the application of security-privacy, i.e. SHA-256 vs SHA-3 mechanisms and the use of secure multi-party computation [sMPC]. It is this intersectionality between blockchain technology, security-privacy, legal jurisdiction and portfolio development that has been Monique's blockchain focus. She holds several industry advisory positions and most recently Venture Partner Sparklabs Accelerator for Cybersecurity and Blockchain, Wash D.C.
